

Frankly Speaking About Cancer: Chronic Lymphocytic Leukemia (CLL)

To view: <u>www.CancerSupportCommunity.org/CLL</u>

To order: www.Orders.CancerSupportCommunity.org

Thank you for your interest in the Cancer Support Community's Frankly Speaking About Cancer education series. The following is a list of publications available for patients, caregivers, and health care providers. Publications are available in print and PDF at no cost using the above links.

Frankly Speaking About Cancer: Coping with CLL

This fact sheet is for people diagnosed with chronic lymphocytic leukemia (CLL). It covers how to cope with CLL and offers ways on how to regain control, get support, and help you maintain the best possible quality of life.

Frankly Speaking About Cancer: Chronic Lymphocytic Leukemia/ Small Lymphocytic Lymphoma

This booklet is for people diagnosed with CLL/small lymphocytic lymphoma (SLL) and their loved ones. It is a tool to help you learn more about a CLL/SLL diagnosis, treatment, and how to cope.

CLL: Improving Communication with Your Patients

This guide is for nurses, social workers, navigators, and other health care professionals. It provides insight into key unmet needs and areas of concern for CLL patients and gives guidance on how to discuss treatment goals and options, quality of life, and other important topics.

Pengang for Var Doctor State The Control of the Co

Preparing for Your Doctor's Visit: A Worksheet for People with CLL

This worksheet is for people diagnosed with CLL. It is a tool to help facilitate better communication about CLL and its treatment, the effects on one's quality of life and how to align treatment choices with personal goals.

CLL Patient Testimonials

CLL survivors, Steve and Lynn, and caregiver, Jen, share their experience with CLL. Topics addressed include health care team communication, watch and wait, caregiving, side effects, diet and exercise, coping, and finding support.

Looking at Leukemias: Chronic Lymphocytic Leukemia

This radio show, hosted by CSC, takes a close look at the new treatments and testing being used to provide the most up-to-date information for making informed decisions. Guest Dr. Danielle Brander (Duke University Cancer Institute).

CLL CAPE

CSC has partnered with the Academy of Oncology Nurse & Patient Navigators (AONN+) and several other organizations on CLL Cancer Advocacy & Patient Education (CAPE). The objective of the CAPE initiative is to create a web-based library of best-practice information that providers in the CLL space can give to their patients and caregivers at each point of interaction.
